MP Engineers & Architects

Dear Hiring Manager,

I am excited to apply to the civil engineering Intern position at NYC or Princeton NJ. I am a third year engineering student at Texas A&M University in College Station, Texas. My degree emphasis is Architectural engineering with a concentration in structural systems of buildings.

I am highly inspired by the opportunities MP Engineers is offering to the interns in the engineering field. I would like to make a difference by working on the Company's challenging infrastructure projects. My biggest strength is that I am good at applying theoretical concepts to real life problems.

In summer of 2021, I worked as an engineering intern at Cross Texas Transmission Company in Amarillo, Texas. I thoroughly enjoyed the corporate experience and working in the field on the various electric transmission projects. As you can see from the enclosed letter of appreciation received from my Manager, I exceeded the team's expectations.

My goal is to obtain a challenging internship so I can get a real world connection to theory, obtain the relevant work experience and utilize my skills to contribute to your organization. I appreciate your evaluation of my credentials and I would welcome the opportunity to review my background in a personal interview.

Sincerely,

Sahil Kumtakar

Sahil Kumtakar

SUMMARY

Engineering undergraduate pursuing Architectural Engineering seeking an internship in civil or structural engineering. Possesses strong analytical skills developed through challenging academic coursework and internship. Keen to learn, flexible and thrives well in fast-paced working environment.

SKILLS

- Microsoft Office (Word, Excel, PowerPoint)
- Autodesk Revit
- Maximo invoice processing software
- Python and Java Programming
- Environmental and Safety Compliance

EXPERIENCE

Engineering Intern, Cross Texas Transmission, May 2021-July 2021
Amarillo, TX

- Built Structure profiles for transmission towers and maintained it in the Maximo database.
- Traveled to different transmission sites and checked transmission structures for defects
- Received a letter of recommendation from the supervisor

New Jersey Champion Representative, Recycle Balls, January 2016-January 2020

- Made presentations to tennis center owners, persuading them to join the tennis balls Recycle program
- Managed the collection and shipping of used tennis balls to recycle center in Vermont Won the GREEN BALL award for recycling 5000+ tennis balls in first 90 days

EDUCATION AND TRAINING

Bachelor of Science

Architectural Engineering (concentration in structural systems of buildings)

Texas A&M University, College Station, TX

Expected in May 2024

- Meredith H James Memorial Recipient
- Active member in ASCE
- Relevant Coursework in Engineering Calculus I,II,III, Differential Equations, Computer Applications Engineering for Civil Engineers, Statics and Particle Dynamics, Mechanics of Materials, Newtonian Mechanics for Engineering, Physics Electricity and Magnetism.

September 27, 2021

Cross Texas Transmission
3469 S Loop 335 East
Amarillo, TX 79118

To Whom It May Concern:

I am writing this personal Letter of Recommendation on behalf of Sahil Kumtakar. I have known Sahil via his internship with Cross Texas Transmission. Over the last several months I have been impressed with his accelerative and unwavering approach to his goals. Additionally, I have witnessed him manage competing priorities while maintaining good character and continued dedication when demanding time constraints arise.

Over the course of his internship with the company, I have had the opportunity to observe an intelligent, personable and hardworking young individual who is committed to finding success no matter what task lies before him. He has personally discussed with me his envisioned future career path based on his passions and interests, and has set concrete goals in order to attain his dreams by being actively involved in various academic organizations.

I believe that Sahil has the ability to function in a demanding environment in many capacities. He has good interpersonal skills and does not shrink in the face of adversity. In the months I have known Sahil, I can personally attest to the fact that he is focused on his objectives and is determined to achieve success even under trying circumstances. Sahil deserves consideration as a potential employee and I recommend him.

For additional interest in my experience with Sahil Kumtakar, I would be glad to discuss in further detail what a delightful and determined young man he is. Please do not hesitate to reach out to me via my personal cell: 806-680-4075.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg Smith", with a stylized flourish at the end.

Greg Smith, Vegetation and Right of Way Manager
