EDUCATION

Lehigh University, PA Architecture BA, Design Minor, GPA:3.64 9/18-5/22
Class of 2022 (with high Honors) Bethlehem, PA

Relevant Courses Architecture Studio I-IV, Product Design I-II, Graphic Design I-II, Architectural History I-II, 20th Century Architecture, Sculpture, Furniture Design, Historical Evolution of Building Material, Architecture Technology I-II

Relevant Projects **Lehigh University Museum of Art**
Proposed a design for a museum to display the University's art collection. Researched suitable site locations to best tie the University to the local community. Used Rhino, Vray, Illustrator and Photoshop for the creation of renderings, plans, sections and diagrams. Presented the design to a panel of architects and museum curators. Created renovation proposals to transform part of Lehigh's Mountaintop campus into gallery space to display student work.

Theory of Form and Materials

Collaborated with the construction team and the site surveying team for the development of detailed construction documents for the assembly of a pavilion for the University campus. Created detailed renderings and plans of the pavilion. Calculated cost estimates for the material and construction cost of the proposed pavilion.

EXPERIENCE

Handled By Hayden & Co. **Graphic Designer** 1/22-7/22
Worked directly with clients to rebrand their company. Used Adobe Creative Cloud to design new logos and graphics, and to create content for social media platforms. Proposed apparel designs for company rebrand. Washington, DC

BioPrep Solutions **Business Outreach/Graphic Design Intern** 5/21-9/21
Co-created an initiative to target the beauty industry for public safety. Designed the logo for this project. Conducted research on the impact COVID-19 has on the future of architecture, research and outlined mitigation measures in the beauty industry. Washington, DC

Insite Engineering, Surveying & Landscape Architecture, P.C. **Landscape Architect Intern** 3/18-7/18
Updated AutoCAD drainage detail drawings to an updated format. Oversaw plans and details for multiple projects to identify errors. Visited the construction site of an ongoing project. Carmel, NY
