

# **OZGUR LEBLEBICI**

## **Mechanical Engineer**

## **International Welding Engineer (IWE)**

## **Quality Control Engineer**

Address : Fair Lawn, New Jersey, USA

E – mail : oleblebici@yahoo.com

Mobile : +1 (201) 316 71 71

## **PROFILE**

Engineer looking for job opportunities with my 18-year-experience in construction departments in industrial plant and pipeline projects. In my experience, I obtained the abilities – organization and time management, teamwork, good communication, problem solving, good flexibility, negotiation, quick adaptation, open and willing to learn.

## **KEY SKILLS**

- Steel Structural Manufacturing
- Welding
- Non Destructive Testing (NDT)
- Project Management
- Storage Tank Erection
- Pressure Vessel Manufacturing (acc. ASME Standarts)
- Equipment Erection
- Pipe Manufacturing
- Piping
- Pipeline erection
- Steel Erection
- Standarts (ASME, API, EN)
- Exotic Welding
- Hydrostatic Testing
- Commissioning
- Method Statement and Procedure
- Quality Assurance & Quality Control
- Documentation
- Reporting
- Planning
- Microsoft Office Programs

## **EDUCATION**

**Gesellschaft für Schweißtechnik International mbH, München / GERMANY**

International Welding Engineer, Graduation Year 2009

**Dokuz Eylul University, Izmir / TURKEY**

Mechanical Engineering Department Graduation Year 2004

## **WORK EXPERIENCES**

**IDEAL CELIK AS, Izmir / Turkey**

**06/2005 – 12/2006**

**Habas Demir Celik Fabrikaları, Izmir / Turkey**

Position : Steel Structural Engineer

- Ideal Celik is one of the subcontractors of Habas
- Managed all erectors and welders
- Responsibility for following up production and assembly of steel construction
- Material supply
- Cost calculation
- Reporting

**GAMA ENDUSTRI TESISLERI AS, Ankara / TURKEY****01/2007 – 05/2009**

Position : Equipment &amp; Pipe Erection Engineer

- I worked in two projects

**Projects in Gama Endustri Tesisleri AS**

- **Vyksa Casting & Rolling Complex Project, Vyksa / Russia**
  - Responsible erection of equipments in Casting and Scrap Yard areas
  - Manage teams
  - Material supply
  - Kept in touch with supervisors of contractor firms
  - Weekly-erection plans and monthly-erection reports.
  - Prepared documentation
- **Qatargas QCS 3&4 Onshore Project, Ras Laffan / Qatar**
  - Erection of equipments and pipes in Inlet Area
  - Manage teams and material supply
  - Prepare RFI and handover documents
  - Manage subcontractor
  - Control of pipe erection and subcontractor
  - Programing erection
  - Organized teams
  - Keep relations with supervisors of contractor and subcontractor.

**GIMAS MAKINA SANAYI AS, Izmir / TURKEY****09/2010 – 11/2011**

Position : Mechanical &amp; Welding Engineer

- The company authorised me for welding activities
- Followed manufacturing in factory and subcontractors' workshops
- Coordination of client, manufacturing team and quality team.
- Performed all requirements of projects
- Prepared new quality documentation system of projects according to EN and ASME standarts
- Renewed all WPSs according to EN and ASME standarts
- Performed welder qualification tests
- Leded manufacturing for boilers and pressure vessels
- Prepared all documents for manufacturing authorization for boilers and pressure vessels by ASME
- Organized and followed non-destructive tests on manufacturing
- Controlled all pre-assembling and run tests
- Reported weekly-manufacturing

**Projects in GIMAS**

- **3 x 500 MW Aberthaw Unit 7 & 9 Thermal Power Plant Project / RWE - npower**  
12 pieces of separators and mill stands
- **685 MW x 2 Chhattisgarh Thermal Power Plant Project / GMR Energy – Doosan**  
14 pieces of coal separators & mill stands
- **2590 MW Orot Rabin Coal Power Station Project / Israel Electric Cooperation**  
12 pieces of separators and mill stands
- **Gulf Flour Abu Dhabi Project / Mikropul**  
Flourspar dust filters
- **Kirikkale Refinery / TUPRAS**  
Pressure Vessels, 5 drums and 3 exchangers
- **Nowokusnezsk & Nizhniy Tagil Coal Power Plants / Paul Wurth S.A.**  
3 pieces of coal separators & mill stands

**ENKA INSAAT SAN. AS, Istanbul / TURKEY**

**11/2011 – 08/2012**

**Shell Early Production Facilities Project, Majnoon, Basra / Iraq**

Position : Mechanical & Welding Engineer

- Supervised construction team for steel structure and piping area of this project
- Prepared weekly programs
- Coordinated activities with erection team
- Transportation of pipes
- Material supply
- Documentation
- Reporting

**ELDORADO GOLD CORP.**

**08/2012 – 02/2013**

**TÜPRAG METAL MADENCILIK TIC. SAN. VE LTD. STI, Usak / TURKEY**

Position : Welding Engineer / Specialist

- Worked in construction team
- Supervised new pipelines on mine
- Monitored subcontractor's work
- Hydrotesting
- Followed quality issues for new lines
- Performed welder qualification tests
- Surveillance quality activities of manufacturing steel structures and equipment installation
- Monitoring of subcontractor activities
- Reporting

**TEKFEN CONSTRUCTION AND INSTALLATION CO. INC.**

**03/2013 – 11/2013**

**Dow & Saudi Aramco Sadara Project, Propylene Oxide Plant, Jubail / SAUDI ARABIA**

Position : Welding Engineer / Specialist

- Prepared all quality documentation, method statements, procedures
- Managed welders on workshop and site
- Performed welder qualification tests
- Prepared and performed WPSs & PQRs according to ASME standards
- Supervised and kept in touch with client's supervisors and inspectors
- Reporting

**YAMATA INDUSTRIAL PROJECTS CONSTRUCTION LTD.**

**06/2014 – 04/2015**

**Lukoil VGO Project, Volgograd / RUSSIA**

Position : Quality Control Engineer

- Started firstly in piping workshop
- Managed QC team in workshop
- Organized NDT activities
- After completion of manufacturing in workshop, I started to work on site.
- Supervised and kept in touch with client's supervisors and inspectors
- Managed welder qualification tests
- Monitored welder tests and hydrotesting
- Followed exotic welding
- Completed missing procedures and documentation
- Reporting

**MOD MODULER MUHENDISLIK LTD STI, Manisa / TURKEY**

**04/2015 – 11/2015**

Position : Owner / Company Partner

- I set up a construction company with two partners
- Followed all legal procedures and documentation
- Prepared most bids for new projects
- Calculated cost estimation

**RINA DENIZCILIK VE BELGELENDIRME SirkETI****11/2015 – 05/2016****GAP Insaat AS, Turkmenbashi International Seaport Project, Baku / AZERBAIJAN**

Position : QC Lead Engineer

- This company followed QC activities in a pipe manufacturing factory.
- Organized Third Party QC team
- Monitored inspections, documentation, NDT activities, reports.
- Monitored welder qualification tests
- Reporting

**SONMEZ METAL END. VE TİC AS****05/2016 – 05/2017****Mary-3 Combined Cycle Power Plant Project, Mary / TURKMENISTAN**

Position : QA/QC Lead Engineer

- Organized QC & Welding team
- This subcontractor company was authorized for all QC activities with main contractor.
- Managed recruitment of inspectors and welders, tested inspectors and welders
- Prepared all documentation, quality procedures, method statements, WPSs & PQRs
- Reporting
- Monitored inspections, NDT activities, reports.
- Supervised and kept in touch with client's supervisors and inspectors

**SHAMS AL SABAH CO.****01/2018 – 07/2018****ENI – Zubair Permanent Power Plant (740MW) Generation Project, Basra / IRAQ**

Position : Crude Oil Tank Engineer

- I was responsible as a tank engineer in tank area.
- Managed erection team.
- Prepared and monitored erection and documentation of tanks.
- Followed quality activities, followed reports.
- Managed hydrotesting.

**FREELANCE ENGINEER / INSPECTOR****08/2018 – 04/2022**

- Project Management
- Manufacturing and erection of pipe and steel structures
- Mechanical Equipment Erection
- Storage Tank Erection
- Pressure Vessel Manufacturing and Inspections
- Inspection and Documentation of Storage Tanks
- Inspections of Steel Structural Manufacturing and Erection
- Inspections of Pipe Manufacturing and Erection
- RIR Inspections
- Hydrostatic Tests
- Documentation, Preparation of Quality Activities
- Welder Tests

**Main Projects as Freelancer****• Karbala Refinery Project, South Karbala / Iraq**

Position : Crude Oil Tank Construction Engineer

- I was responsible for 8 oil tanks as only an engineer in Iraqi local company.
- Kept in touch with site manager, construction manager and QC team.
- Organized and managed erection teams.
- Supervised and kept in touch with client's supervisors and inspectors
- Followed-up QC activities
- Monitored Erection, QC and NDT documentation.

• **Tekfen Ceyhan Fabrication Facilities, Ceyhan Adana / Turkey**

Position : Project Engineer

- I was responsible as a project engineer for Parnaiba Piperack Project on behalf of Techint Company.
- Kept in touch with fabrication manager, quality manager, production manager and engineers.
- Solving the issues with Tekfen Fabrication management.
- Reported all activities and documentation to Techint Company.
- Controlled products and manufacturing according to project contract and requirements.
- Followed-up manufacturing and quality activities.
- Monitored manufacturing progress, quality and documentation.

• **Aritas Cryogenics Fabrication Facilities, Bandirma, Balıkesir / Turkey**

Position : Pressure Vessel Inspector

- I was responsible as a pressure vessel inspector for Arctic LNG 2 Project on behalf of Novatek Company.
- Kept in touch with QA/QC manager, engineers.
- Followed-up all QC activities of all pressure vessels.
- Controlled all steps according to project contract & requirements and ASME standards.
- Monitored QC and NDT documentation
- Reported all activities and documentation to Novatek Company.

• **Katmerciler Izmir Factory, Cigli, Izmir / Turkey**

Position : QC Inspector

- I was responsible as a QC inspector for aluminum transportation tanks on behalf of DNV GL (WOQOD) Company.
- Kept in touch with QA/QC manager, engineers, TSE engineers.
- Followed-up all QC activities of aluminum tanks.
- Controlled all steps according to project contract & requirements.
- Witnessed hydrotesting..
- Monitored QC and NDT documentation
- Reported all activities and documentation.

**NALBANT GROUP CELIK KONSTRUKSIYON AS, Izmir / TURKEY 04/2022 – 11/2022**

Position : Welding Engineer

- Managed welders on workshop and site
- Performed welder qualification tests
- Prepared and performed WPSs & PQRs according to ASME standards
- Supervised and kept in touch with client's supervisors and inspectors
- Prepared all documentation, quality procedures, method statements, WPSs & PQRs
- Reporting
- Monitored inspections, NDT activities, reports.

**CERTIFICATES (As per SNT-TC-1A Documents)**

- International Welding Engineering (IWE) Diploma
- ASNT Penetrant Testing Level II
- ASNT Magnetic Particle Testing Level II
- ASNT Radiographic Testing Level II
- ASNT Ultrasonic Testing Level II
- ASNT Visual Testing Level II
