Hello

I am nineteen years old and a student in The Rutgers School of Engineering. During the school year I live in a dorm located in New Brunswick NJ and in the summer I come back to Metuchen where I've lived my entire life. I am very intrigued by the information I've learned thus far and I want to see how I can put it to use to change peoples lives. Although I haven't got any experience yet I'm eager to work and quick to learn.

Education

Rutgers University Undergraduate in Engineering

Rutgers University-New Brunswick - New Brunswick, NJ
