EDUCATION

California State Polytechnic University Pomona   Pomona, CA
Bachelor of Architecture   May 2021

SKILLS

- Proficient with AutoCAD, Revit, SketchUp Pro, Rhinoceros, Lumion, Enscape, Grasshopper, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, and Microsoft Office Suite (Word, Excel, PowerPoint, and Outlook)
- Excellent in Architectural Design, Conceptual Design, Sketching, Parametric Design, Digital Fabrication, Visualization, 3D Modeling, Building Information Modeling, Architectural Drawings, Design Research, Project Management, Coordination, Problem Solving, Collaboration, Presentation, and Communication
- Fluent in Chinese (Mandarin) and English

PROFESSIONAL EXPERIENCE

The Code Solution   Downtown LA
Architectural Designer   01/2022 – Present
- Leading and managing a 6-unit apartment residential project by preparing schematic design, design development, and construction documents
- Creating comprehensive and detailed schematic and construction documents including construction detail, project information, landscape plan, and specification documents for all the utilities. Ensuring all design plans are complied with the codes regulations
- Demonstrating strong proficiency in Enscape and Revit through preparing architectural drawings for residential and commercial projects
- Collaborating with the consultants of Structural, Electrical, Mechanical, Civil, and Interior designers to maintain design intent that meets client's vision
- Prioritized maintaining positive client relationships by effectively communicating and interpreting information to and from clients

KSK Design Inc.   Koreatown LA
Architectural Designer   03/2021 – 12/2021
- Contributed to company's operational success by analyzing schematic designs, revising construction documents, and providing architectural feedback for over 20 projects for various building types
- Ensured all design plans were up to date and in compliance within the existing code requirements including building, ADA, green and fire code
- Collaboratively developed creative design solutions with cross functional teams for a 50-unit transit-oriented community affordable housing project located in Downtown Los Angeles
- Pro-actively coordinated with the Building Department for Ready to Issue Permit (RTI) submissions especially during the pandemic phase
- Delivered quality design work per established company and industry standards within budget and on schedule through utilizing department developed methods and procedures

California State Polytechnic University Pomona – The Blend Project   Pomona, CA
Student Project – Owner   01/2021 – 05/2021
- Designed a comprehensive architectural building aimed to create a gathering space for 2 different demographic groups at Toy District in Los Angeles
- Delivered unconventional perspective on how to maximize space utilization and encourage the use of public space
- Exhibited strong drawing capability through developing high quality and detailed 3-dimential images using Rhino & Enscape

California State Polytechnic University Pomona – The City Escape Project   Pomona, CA
Student Project – Co-owner   08/2019 – 12/2019
- Designed, developed and created a 3-foot height physical model using recycled materials. Aiming to create a space for people to detox from the modern/corporate pressure in Downtown Los Angeles
- Guided the project team in understanding the project goal, strategy, and challenges by translating business problems into analytical solutions
- Actively participated in project discussions to identify and propose solutions to design challenges. Successfully solved design issues through innovative use of materials
- Prioritized maintaining effective communication within the project group in order to achieve project success
